WIREFRAME

Wireframe merupakan kerangka dasar (blueprint) dari halaman website yang akan dibangun, menampilkan tataletak elemen-elemen penting dari halaman website.

Secara visual tampilan dari wireframe, hanya terdiri dari kotak dan garis yang menandakan posisi dari masing-masing elemen pada layout halaman website.

MANFAAT WIREFRAME

Dapat membantu untuk fokus pada penempatan fitur dan elemen desain, **tanpa terganggu perhatian oleh warna, tipografi atau elemen desain lainnya.**

Berupa kotak hitam-putih, dapat memudahkan untuk mendeteksi, apa yang kurang / tidak bekerja dari sisi usability, fungsionalitas.

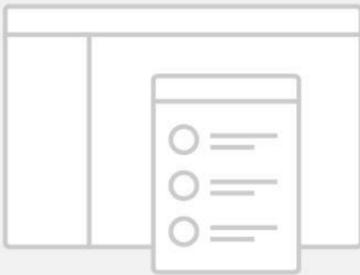

Dengan adanya wireframe akan lebih mudah untuk mempertimbangkan perbaikan (revisi), sehingga dapat menghemat waktu dan tenaga.

Learn English on Skype without ever having to leave your house!

Join today and discover how easy it is to improve your English and reach your language goals.

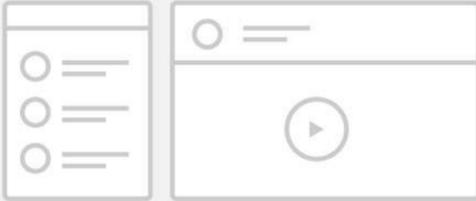

100% Personal Attention

Taking private lessons on Skype is an excellent way to improve your English due to the full attention you are getting from the instructor. This is what makes learning this way special- 100%, one-on-one lessons designed for you based on your needs!

Native English Speaker

Talking with an American native speaker will help you to improve your pronunciation. During lessons slang and commonly used phrases are discussed. The teacher will also give you some options of words/phrases which sound natural to a native speaker.

Convenient & Low Cost

You save time and money by not having to travel to a lesson. Because you are not going to a school, there is no need to pay a middle man, so you will find prices very reasonable.

Fun & Interesting Lessons

Students learn best in a friendly, creative and enjoyable setting. Many tools and methods are used to make lessons fun. Students never have to worry about a dull lesson with SkypEnglish4U. Laughter is encouraged!

What Students say about the lessons

Mei Chin Kwan From China

"Best in a friendly, creative and enjoyable, Many tools and methods are used to make lessons fun"

Syarip Yunus From Indonesia

"there is no need to pay a middle man, so you will find prices very reasonable."

Pricing is affordable with flexible scheduling options!

GRID SYSTEM

Grid merupakan garis-garis vertical dan horizontal yang membagi halaman menjadi beberapa unit.

Fungsi dari grid adalah mempermudah pengaturan kompleksitas kolom, sehingga menciptakan keharmonisan visual.

Timothy Samara, 2002

Syarip Yunus, M.Ds

GRID SYSTEM

Grid membantu memetakan berbagai elemen desain yang berbeda untuk ditempatkan pada satu bidang layout.

Sehingga menciptakan keteraturan, keharmonisan arah lihat, struktur layout yang terorganisir dan kejelasan alur informasi.

Essence

The 960 Grid System is an effort to streamline web development workflow by providing commonly used dimensions, based on a width of 960 pixels. There are two variants: 12 and 16 columns, which can be used separately or in tandem. [Read more](#).

Dimensions

The 12-column grid is divided into portions that are 60 pixels wide. The 16-column grid consists of 40 pixel increments. Each column has 10 pixels of margin on the left and right, which create 20 pixel wide gutters between columns. [View demo](#).

Purpose

The premise of the system is ideally suited to rapid prototyping, but it would work equally well when integrated into a production environment. There are printable sketch sheets, design layouts, and a CSS file that have identical measurements.
